-Polokwane

Strategic Partnerships and Accreditations

QCTO Accreditation | SAQA/FASSET Accreditation | CIMA Approved Tuition Provider | CIMA Training Partner (articles/PER)
ICB & IQB Accreditation | Assoc. of Corporate Treasurers | Kaplan Publishing

2.Why Study CIMA?

"Becoming a Chartered (Management) Accountant is South Africa's best kept career secret!

Straight from matric or university, over 2-4 years, you can "Become Your Vision: A Chartered Global Management Accountant" (CGMA) and be invited to membership of South Africa's and the world's largest, most-prestigious and sought-after professional body of Management Accountants -the Chartered Institute of Management Accountants (CIMA). **What's more?** You can after 2 years, convert to CA(SA) whilst keeping your CGMA, by meeting the terms of the SAICA-CIMA

Membership Pathway Agreement (MPA).

As a CIMA student or CGMA, your job prospects in South Africa and Internationally are pretty good at all levels and sectors, ranging from roles such as Accounts Assistant, Debtors/Creditors Controller, Cost Accountant, Financial Accountant, Management Accountant, Business Analyst, Finance Business Partner, Management Consultant, Risk Manager, Project Auditor/Manager, Operations Manager, and Finance

Manager; to senior executive roles such as Chief Financial Officer (CFO),

Chief Executive Officer (CEO) -or Managing Director.

CIMA is a professional rather than academic qualification; and it is SAQA-registered at NQF 8. An academic qualification (-typically a certificate, diploma or degree) is issued by a tertiary institution (e.g. a university), to certify your theoretical knowledge, **without** regard as to your ethical compass and actual competency to apply that knowledge in the real-world. A professional qualification on the other hand, is generally issued by a globally-renowned professional body (CIMA- in this case), to confirm your theoretical knowledge, ethical compass **as well as** your actual ability (competency) to professionally apply that knowledge at work; uniquely verified through a set of progressively rigorous professional exams, case studies (simulations) and practical work experience. This distinction is crucial as it explains ***why employers prefer professional qualifications:*** although paradoxically, many **mistakenly** still choose to pursue academic rather than professional qualifications..

As outlined on the next page, only CharterQuest combines your CIMA Fulltime exam-focused tuition and the required practical work experience opportunities, to secure your employability upon graduation!"

D.Valentine Nti

Founding Chief Executive

E & OEs

3. 10 REASONS TO CHOOSE CHARTERQUEST

Fastest Route to Completing Your Studies

1st Time Pass Guarantee or Free return + 35% OFF A 2ND SUBJECT, backed by top lecturers and pass rates as high as 100% in some exam diets (OT & Case Study Exams).

Career Solution

An end-to-end career solution that includes connecting you to jobs. www.charterconnect.co.za

International Student-friendly

An international student-friendly regime that includes free accommodation assistance and immigration advice on how to obtain your study permit.

4.What Is The CIMA Qualification Structure?

The CIMA Qualification Structure comprises a Competency Framework as above and a Qualification Framework as on the next page. The Competency Framework achieves 2 key ideas;

IDEA 1:

It quality-assures your education, developing your skills around 4 mind-set changing competencies of a modern Management Accountant. These 4 broad competencies include:

1. Technical competence; **Apply accounting & financial skills;**
2. Business competence; **In the context of business;**
3. People competence; **To influence people, and**
4. Leadership competence; **And lead within the organisation.**

IDEA 2:

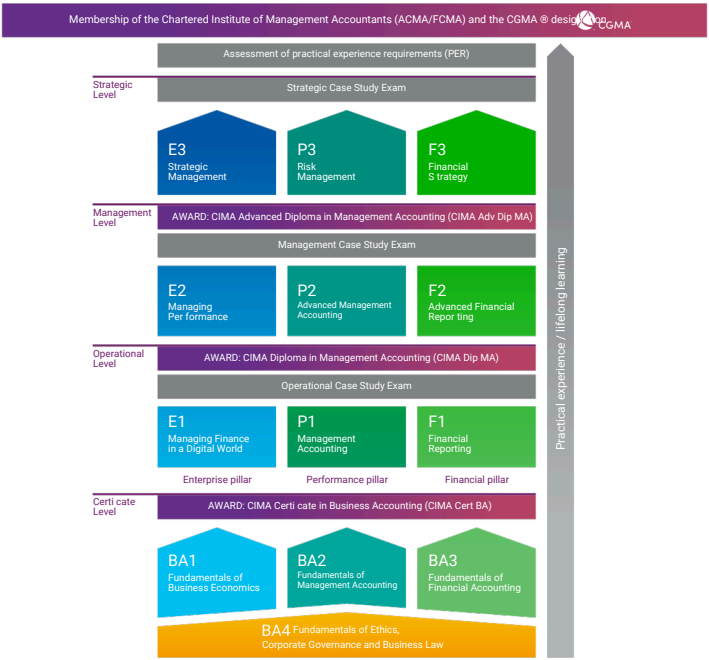

It is founded on strong ethical values and the professional skills that brings together Financial Accounting, Management Accounting and Business (Strategy).

In essence, The CIMA Qualification assures that you are **technically astute**, **business savvy (acumen)**, **emotionally intelligent** and **leadership smart**. with a strong **ethical and moral compass**; transforming you into a sought-after finance professional.

E & OEs

5. The CIMA Qualification Framework

The diagram below shows the CIMA Qualification Framework. This includes the Certificate in Business Accounting; the Professional Qualification; Assessment of Practical Experience; and Continuing Professional Development (CPD) in thef orm of lifelong learning

As illustrated above, the Qualification Framework, derived from the CIMA Competency Framework elaborates 3 further ideas:

IDEA 3:

It is structured around 3 vertical pillars (the Enterprise, Performance & Financial Pillar) and 4 distinct horizontal levels (Certificate, Operational, Management & Strategic Levels) requiring a pass at 13 Objective Tests (OTs) and 3 progressively-challenging accounting and integrated business case study exams (the Operational Case Study, Management Case Study & the Strategic Case Study Exams);

IDEA 4:

It allows you to obtain 3 separately recognised qualifications along the way (the CIMA Certificate in Business Accounting, CIMA Diploma in Management Accounting and the CIMA Advanced Diploma in Management Accounting); and

IDEA 5:

It requires 3 years of practical work experience ('articles') which you can obtain before, during or after your CIMA studies.
